

comment on Telephone Consumer Protection Act Docket - 02-278

Please keep our do not call list as strong as it is today. It is the only thing that saves use from the telemarketers. If someone here in NJ. whats to be left alone they have the right to sign up for this list and be left alone. I see no reason other then CORP Greed that the FCC should change anything other then thier own law which is much weaker please keep thing as they are  
thanks you for listening
